MAKES MOVING

MAGNETIC CORNER TRACKS

2010

La curva magnetica è la soluzione ottimale per i percorsi curvilinei. Le catene sono trattenute in curva da magneti integrati garantendo superfici di appoggio perfettamente piane e la conseguente ottima stabilità dei prodotti trasportati. La struttura della curva consiste in una parte superiore corredata di magneti e di una parte inferiore separata per il rinvio assemblate insieme. La presenza del pattino di ritorno assicura alla catena la guida senza inciampi nel percorso di ritorno.

Le catene magnetiche risultano estremamente piatte dal momento che non necessitano di guide Tab.

La pulizia della curva è semplicissima ed attuabile semplicemente sollevando la catena. La superficie della curva è chiusa e senza rugosità, così da evitare accumuli di detriti e residui.

Con questo sistema, si ha un aumento della resistenza all'usura delle catene grazie alla maggiore superficie di appoggio in curva e alla manutenzione più semplice e veloce.

magris

Magnetic curve is the ideal solution for your corners. Special integrated permanent magnets keep the chain in the curve. This system offers a flat carrying surface, therefore the best product stability and support. The complete curve consists of an upper part with magnets and a separate return part mounted together. The return infeed shoe will ensure smooth guiding of the chains into the return section.

Magnetic chains are also flatter since they have no tabs guides.

Clearing the curve can be done easily by lifting the chain. The curve surface is closed and smooth to avoid dirt accumulation.

This system provides a longer wearlife, because the bearing surface of the chains on the curve is larger than in other systems, and maintenance is easier.

Curva di Andata

Materiale:
PE-UHMW Blu vergine 8 milioni gr/mol
Materiale speciale con alta resistenza
all'usura, studiato per applicazioni
gravose.

Upper Part

Material:
PE-UHMW Blue 8 million gr/mol, virgin.
Special material studied for high wear
resistance applications.

Curva di Ritorno

Materiale:
PE-UHMW Nero c.ca 4 milioni
gr/mol con alta resistenza all'usura.

Return Part

Material:
PE-UHMW Black about 4 million
gr/mol for high wear resistance.

** Con le catene in acciaio inossidabile le curve magnetiche Magris sono utilizzabili in tutto il mondo senza restrizioni.
Worldwide no restrictions for Magris magnetic curves used with stainless steel chains.

** Con le catene in resina termoplastica le curve magnetiche Magris sono soggette a restrizioni in alcune nazioni. Vi preghiamo di contattare il nostro servizio clienti per maggiori dettagli.
Some restrictions in specific countries for Magris magnetic curves used with thermoplastic chains. Please contact our Customer Service for more details.
